

# CRUD: The Four Things You Do With Data

Every screen you have ever used is some combination of these four.

## What you want to do

## SQL keyword

## In CivicTrack

CREATE  
log a new report

INSERT

```
INSERT INTO requests (request_id, category_id, status)
VALUES ('SR-1042', 3, 'New');
```

READ  
look something up

SELECT

```
SELECT * FROM requests
WHERE status = 'New';
```

UPDATE  
change what is there

UPDATE

```
UPDATE requests SET status = 'Resolved'
WHERE request_id = 'SR-1005';
```

DELETE  
remove it

DELETE

```
DELETE FROM requests
WHERE request_id = 'SR-1005';
```

*The words change between databases and programming languages. The four ideas do not.*
